## ANTI-ORIENTAL RIOTS

### Frenzied Mob at Vancouver, B. C., Make Attack on Foreigners.

### BRICKS AND BOTTLES USED

**British Columbian City Is Scene of Severe Rioting, Which Was Finally Quelled by the Police After Many Arrests Had Been Made.**

Seattle, Wash., Sept. 10.—A dispatch to the Post-Intelligencer from Vancouver, B. C., says:

"Following a riot Saturday evening at Vancouver, in which Chinatown and the Japanese quarters were raided and damaged approximating $15,000, a further demonstration occurred later in which Kiki Yire Ishii, chief of the bureau of foreign commerce and head of the Japanese consular service, and Consul Baburo Hisamidzu, of Seattle, were the central figures and in which riot a number of people were bruised and injured by broken bottles and flying bricks in the hands of a frenzied mob.

Baron Ishii and Consul Hisamidzu finally made their escape from the mob and the affair was immediately cabled to Tokio.

Coincident with the riot was the arrival of a steamship having on board at least 500 Japanese. With a common impulse the mob surged to the water front and as soon as the Japanese came down the gang plank, they were met by the rioters. Seven or eight of the Japanese were unceremoniously picked up and thrown into Burrard Inlet.

Still further rioting occurred when a crowd of 4,000 laborers started on the warpath, but were finally quelled by the police after about twenty arrests had been made.

Sunday night Chinatown was roped off and the quarters of the Orientals guarded by the police.

Baron Ishii gave out an interview in which he stated that he had cabled to Ambassador Kaneko at London apprising him of the stirring events here.

Indemnity to the amount of $25,000 from the city will be claimed. Mayor Bethune declares the indemnity will not be paid and the affair will be taken up with the Dominion government. Saturday night's rioting was the worst in the history of Western Canada. International complications are looked for.

### ALABAMA MAY GO DRY.

**Prohibition Wave Is Sweeping Over the State.**

Montgomery, Ala., Sept. 10.—The prohibition wave seems to have struck Alabama in full force, the fight in Jefferson county being merely a preliminary to what appears to be developing into a state-wide movement.

Lieutenant Governor Gray, who is an aspirant to the highest office in the state, as successor to Governor Comer, has come out strongly as a prohibition candidate, and a number of the smaller counties will vote on the question before the winter holiday.

Among the forces that are busy against the sale of liquors is the Baptist church, which is conducting a systematic campaign and has been for some time against the business.

### FIRE AT CHARLOTTE

**Newspaper Plant Has Narrow Escape from Destruction**

Charlotte, N. C., Sept 10.—A fire which broke out in the plant of the Charlotte Observer at 2 o'clock Monday morning for a time threatened the destruction of the whole newspaper plant, but was extinguished within a couple of hours by strenuous work of the fire department.

The editors and printers who were preparing the first edition of the paper were compelled to flee, many of them losing their personal effects.

George Wilson, a deaf mute lad, thirteen years of age, who was sleeping in the stock room, is missing.

The fire loss has not yet been estimated, but it is fully covered by insurance.

### $140,000,000 REQUIRED.

**Colossal Sum Necessary to Run New York City for a Year.**

New York, Sept. 10.—This city will face the most colossal expense account of its history during the coming year. The expenses of government, as figured out by the various heads of departments, for the coming year will in round numbers be about $140,000,000. This is considerably more than was required to run the whole United States government in 1876, and shows an expenditure that eclipses anything ever heard of in municipal history.

It has been figured out by statistitians that at least $40,000,000 of this amount will go for graft—men growing rich over night. The only item in the budget this year that will not be seriously criticised by the taxpayers is the $22,000,000 that is asked for the public schools. Under Superintendent Maxwell, the New York public schools have gone from nearly the lowest stage of efficiency in the country to the highest. The teachers are the best paid in this or any other country, and they are appointed without the slightest political influence. All that is required of them is to pass the so-called "Maxwell examination." If they can do this their place is secure. The result of this liberal policy has been to draw to the city of New York the very best teaching talent in the country. It comes hard sometimes on the native New Yorker, but, as it insures to the benefit of public education, there is little or no criticism of the Maxwell system.

### ADOPTS UNION PRICES.

**Action of Executive Committee of the Southern Cotton Association.**

Jackson, Miss., Sept. 10.—After adopting minor changes in the constitution, the executive committee of the Southern Cotton Association adjourned Saturday.

The most important action of the two days' session was the fixing of the minimum cotton price at 15 cents per pound and $20 per ton for cotton seed. A committee was appointed to confer with manufacturers in an effort to have the seed market open at $20 if possible.

President Harvie Jordan, Organizer Smith and President Walter Clark, of the Mississippi division, were appointed a committee to arrange an itinerary for a tour of the cotton belt to arouse enthusiasm in the work of the association.

Madison county was selected as the site of an experiment station of the organization.

**Fatal Wreck Near Chattanooga.**

Chattanooga, Tenn., Sept. 10—By the overturning of an engine on the Belt Line railway at 4:30 o'clock Sunday evening, Fireman Charles E. Mills was instantly killed and Conductor William Stroup was fatally injured. Spreading rails caused the engine to leave the track and turn over, pinioning the fireman under the wreck. Ten freight cars piled up on the wrecked engine. The entire train was practically demolished.

**Employees to Stand Firm.**

Decatur, Ala., Sept. 10.—More than 500 Louisville & Nashville railroad employees here Saturday adopted strong resolutions against the threats of local state officers to have their fellow employees indicted or arrested for performing their duties without regard to suspended statutes. Several speeches were made supporting Federal Judge Thomas Jones' injunctions preventing state officials from arresting Louisville and Nashville employees.

**To Build Fine Opera House.**

New York, Sept. 9.—Oscar Hammerstein, the operatic manager, says the Times, has purchased the marble residence and large plot of ground at the southeast corner of Broad and Poplar streets, Philadelphia, and will erect there an opera house which will rival in beauty and spaciousness the finest structures of the kind in this country or Europe.

**Firemen Select Chicago.**

Oklahoma City, Sept. 10—The National Firemen's association of America has selected Chicago for its next convention.

## RACE OF BIG LINERS

### Lusitania and Lucania Speeding Across the Atlantic.

### RACE OF GREAT INTEREST

**Wireless Telegrams Have Been Received Giving the Progress of the Race Up to Monday—Lusitania Is One of the largest Vessels Afloat.**

New York, Sept. 10.—Dispatches by wireless telegraph from the steamer Lusitania, one of the giant ships that is expected to break records in making the trips between England and the United States and return, give news of this race, the steamer is racing on her first voyage. A wireless message says:

"The Lusitania traveled at no great pace at first, but the absence of vibration was so noticeable that it made the passengers believe that they were dining in a hotel. After dinner the pace was increased.

"While hundreds were exploring and admiring the comforts of the ship, groups of Cunard directors, ship experts and naval architects gathered in the smoking room and earnestly discussed the prospects of the voyage.

"The Lucania, which left Liverpool four hours ahead of us, was overtaken and passed at 4:30 Sunday morning. She had half an hour start of us leaving Queenstown.

"Two hours after we left Queenstown the Lucania was still ahead. At six o'clock Sunday night she was about 15 or 20 miles astern of us. A fog caused the Lusitania to slacken down her speed, which greatly disappointed the passengers."

Another dispatch sent at 9 o'clock Sunday night reported that the ship was 180 miles from Queenstown. The weather was clearer, it announced, and the vessel was ploughing at her greatest speed.

"The Lucania is believed to be near us," the dispatch continued, "but her position is not specified. She has not been sighted since dinner time. The passengers are lining the sides to catch a glimpse of her if possible. The progress of the Lusitania is very smooth."

Later dispatches reported that the Lusitania had passed the Lucania.

### TROOPS PUT TO FILGHT.

**U. S. Soldiers Attack Kansas Jail to Rescue Comrade.**

Junction City, Kans., Sept. 10—A mob of nearly fifty soldiers from the ferriers' school at Fort Riley came here about 1 o'clock Sunday morning for the purpose of releasing a comrade who was confined in the jail at this place.

The sheriff and city police force were informed of their coming, and from positions in windows above the jail opened fire with winchester rifles that quickly dispersed the mob as it sought to force an entrance.

The authorities at Fort Riley put guards at the jail and are aiding in the effort to find the members of the mob. Two arrests have been made. No one was shot.

**University Has Large Attendance.**

Tuscaloosa, Ala., Sept. 10.—The enrollment at the university has reached the encouraging number of 252. There are 189 new students, an advance of 30 in the registration of the third day last year. Thomas Palmer and Miss Stella Palmer, formerly of the university, but now at Montevallo, have returned to resume their studies. There are quite a number of students from Birmingham, Mobile and Montgomery.

**Fatal Mine Accident.**

Coahuila, Mexico, Sept. 10—A fire occurred Saturday at the Esperonsa mines, in which 27 Mexican miners were killed and many injured. The fire started in No. 1 and is supposed to have been caused by fire damp. A large force of men is at work trying to alleviate the suffering of the injured, while every effort is being made to get the bodies of the dead out of the mine.

### WILL FIGHT PROHI LAW.

**Meeting of Georgians Interested in Breweries Held in Savannah.**

Savannah, Ga., Sept. 10—A meeting of representatives of several of the breweries of the state was held here Saturday, and action to be taken in the matter of fighting the recent prohibition law enacted by the Georgia legislature was discussed. It is said that the principal ground for the fight will be based upon the fact that the brewing of spiritous and malt liquors has been pronounced by the United States supreme court a legal and legitimate business, and that interference by a state legislature is a constitutional violation and an infringement upon interstate commerce. Discussion of the charter rights of the companies was also engaged in, all of the companies, it seems, have charters whose terms do not expire for some years.

Present at the meeting were Albert Steiner, and E. S. McCandless of the Atlanta Brewing and Ice company; A. Black, of the Macon Brewing company, and E. W. Herman, of the Augusta Brewing company, as well as the representatives of the local brewery interests.

### TO GET INSURANCE MONEY

**Believed Girl Sought Life of Count Kamarovsky.**

Vienna, Sept. 10.—The Vienna police have made an interesting discovery which may account for the attempt at Venice, Sept. 4, on the life of Count Kamarovsky, a colonel of the national guard and a councilor of state, by Nicholas Naumoff, a Russian.

It has been ascertained that Kamarovsky insured his life for $100,000 in favor of a lady with whom he fell in love. As she was acquainted with Naumoff, it is presumed that she planned to murder him in the hope of obtaining the money from the insurance company. Another Russian suspected of having been implicated in the plot has been arrested here.

**Dead Body Found in a Creek.**

Troy, Ala., Sept. 10.—The dead body of Wilford Sanders, a well known young white man, was found in a creek near Tennille, 17 miles from here on Friday. His right foot was caught in a root near the bank. Sanders had been missing about two weeks and his decomposed body leads to the belief that he had been drowned that length of time. He had been in bad health, but his death cannot be accountdef or. Sanders had recently been working in Florida, but was on a visit to his old home.

**Oldest Mason in the World.**

Mount Sunapec, N. H., Sept. 10.—James Bellows McGregor, said to be the oldest Mason in the world, celebrated his 106th birthday with a public reception Friday. He was born in 1801, a mile from where he now lives near here. His joining of the Masonic order in 1827 makes him a member of eighty years' standing, and the oldest Mason on record in the world. Mount Vernon lodge, A. F. & M., of Newport will attend the celebration in a body.

**Dan O'Leary Still Plucky.**

Cincinnati, Sept. 10.—During Sunday night Dan O'Leary, the old-time champion pedestrian, continued steadily his endurance test of walking one thousand miles in one thousand consecutive hours at Norwood, a Cincinnati suburb. Notwithstanding his 63 years, O'Leary says he will surely complete the unique walk and he showed no sign of weariness at the end of his first eight hourly miles.

**Long Drouth Broken.**

Oklahoma City, O. T., Sept. 10—The long drouth in this section was broken Sunday night by 7.07 inches of rain. The rain wa general all over Oklahoma and Indian Territory. .70 inches having fallen at Weatherford; 1.25 inches at Holdenville, I. T., and .55 inches at Chandler. Cotton and fall seeding was greatly benefited.

**New Public Library.**

Columbus, Ga., Sept. 10—The new public library here, costing $60,000, has been completed, and will be turned over to the trustees this week.

## BOLT FIRES HOTEL

### Fatal Fire Occurs at Cleveland Springs, N. C.

### THREE PERSONS PERISHED

**Lightning Sets Fire to the Building and Three People, Caught by the Flames and Held Captives, Lose Their Lives.**

Charlotte, N. C., Sept. 10.—During a severe electrical storm about 12 o'clock Sunday night, the pretty 3-story hotel at Cleveland Springs, N. C., was struck by lightning and in an hour and a half the hotel was reduced to ashes.

Three persons, caught and held captive by the wild flames, were burned to death.

The victims of the fire were:

Miss Smith, of Ellenboro, N. C., and two negroes, names unknown, employees of the hotel.

Only a few of the guests' effects were saved.

Miss Smith occupied a room on the third floor, and her screams were heard by onlookers, but it was impossible to reach her.

One negro woman, who slept in the attic, managed to get on the roof, jumped to the electric wire and to the post, sliding down safely.

The loss to the hotel will be about $25,000, with $10,000 insurance.

Cleveland Springs is about 53 miles from Charlotte. It is a famous resort.

**MANIAC SON KILLS PARENT.**

**Required Strength of Five Men to Subdue Him.**

Chattanooga, Tenn., Sept. 10.—A special to the Times from Gadsden says:

News has just been received in Gadsden of a bloody tragedy which occurred near Martling, on Sand mountain, in Marshal county, Saturday morning.

Frank Lee, the maniac son of Aller Lee, who had been supposed harmless, became violent and killed his aged father by beating out his brains with a stick. All the other members of the family escaped.

When an attempt was made to capture young Lee after his gruesome work, it required the combined force of five strong men to bring him to submission.

**Serving of Warrant Delayed.**

Cleveland, O., Sept. 10.—Physicians have again delayed the serving of a warrant to arrest Mrs. Charlotte Phillips for the alleged murder of her husband, John J. Phillips, a local operator and broker, who was found dead last Monday. The warrant was prepared last Thursday, but was not served owing to the critical condition of Mrs. Phillips who was reported to be in a state of coma. Sunday the physician representing the family reported that Mrs. Phillips was in no condition to be taken to the court.

**Trouble Feared on the Border.**

Nogales, Ariz., Sept. 10.—Acting at the request of Mexican officials, the government has secret service men and troops patrolling the border between this state and Mexico. It has been feared by the Mexican authorities that an attempt at revolution will be made on Sept. 15th, the anniversary of Mexico's independence. An investigation develops that many Mexican malcontents have congregated on this side of the border, and as there was serious trouble last year, it was deemed best to take due precautions. The greater part of the suspects are political exiles and refugees from justice.

**Canoe Upset; Three Drown.**

Akron, O., Sept. 10—Charles Holloway and Miss Reif Snider, of this city, and Miss May Akins, of Cleveland, were drowned and Harold Todd of Cleveland had a narrow escape from death by the upsetting of a canoe Tuesday night. Todd managed to swim ashore, but was nearly exhausted.

# THRIFTY NEWBERRY IS STILL GROWING

## Stores and Factories Are Going Up Rapidly in That Town.

### THE FIRE WAS A BLESSING

### In Disguise, as It Drove the Citizens to a Determination to Build a Better and Bigger Town—Waterworks Included Among Other Improvements.

The thriving town of Newberry seems to have taken on a very vigorous new life since the demon, fire, visited the place a few months ago, leaving only a few straggling business houses and residences of what was a few hours before not a handsome, but a bustling burg.

But the people of Newberry are made of the proper kind of material. Those who had been engaged in mercantile and other pursuits there for several years, had watched the development of the country surrounding Newberry, and who had accumulated money there, had confidence in the future of the village, and realized that it was destined to become the business center of a vast phosphate section where money flows as freely as water, and where everyone who wants to "get" prospered, from the merchant who placed shoes on the feet of horses to the fellow who was considerably strong in the financial world.

The fire which visited Newberry destroyed a greater part of the town in the space of a few hours, and at the time was looked upon as a great calamity, but the citizens woke up, saw that they had a task before them to build a bigger and better town, and they are succeeding very nicely.

Before the ruins had ceased to smoke workmen were engaged in clearing away the debris, orders for material were being hurriedly placed, and within a week after the fire carpenters were engaged in laying the foundations for new, substantial and commodious buildings, many of which are now completed and occupied.

In order to keep up with the times, the town has now developed a small but up-to-date system of waterworks, upon which work will begin in a short time. The contract for the accommodation of the town for some time, and will be extended from time to time, as the growth requires.

Newberry congratulates her sister city of Archer on the thrift and energy of her people, and projects a fine and thriving city for the metropolis of the phosphate belt before many years.

### MEETING SCHOOL BOARD.

Special Meeting to Receive Report of Examination Grading Committee.

A special meeting of the Board of Public Instruction of Alachua county was held Tuesday, the purpose of the meeting being to receive the report of the grading committee of the applicants for teachers, which was received last.

Upon examining the report, it was discovered that out of thirty-two white applicants, seven received first grade certificates, five second grade and eight third grade, making an average of sixty-four per cent.

There were only two applicants for colored schools, and neither of these passed the required percentage, hence received no certificate.

Superintendent Kelley states that this was one of the most difficult examinations ever presented to the teachers of Florida, and he congratulates those who were fortunate enough to pass, encouraging those who failed.

### Ed Wellington Resigns.

Ed Wellington, for the past year the efficient head clerk at the Brown House, has resigned his position, and left Tuesday for his home in Jacksonville.

Mr. Wellington is a young man of most affable disposition, and has many friends among the traveling public who will regret to see him retire from the hotel business—"the strenuous life."

Mr. Wellington will be succeeded here by Harry Dodson, a Gainesville boy who has had some experience in hotel work. Harry is also a popular young fellow, and it goes without saying will become a favorite behind the desk.

### JUDGE MASON'S COURT.

#### Two Counts Brought Against J. H. Blackwell—Waived Examination.

J. H. Blackwell, white, well known in the Fairbanks section, was arraigned in Judge Mason's court on Monday upon two charges.

The first charge was that of assault with attempt to murder. The second was a charge alleging the carrying of concealed weapons.

The defendant was on hand promptly to answer to the charges, but waived examination and gave bond in each case for his appearance before the October term of the court.

Mr. Blackwell is a well-known citizen of Fairbanks, where he has resided for several years. Some of his friends intimate that he is being persecuted, although nothing can be learned until the facts come out.

### Had Tetter for Thirty Years.

I have suffered with tetter for thirty years and have tried almost countless remedies with little, if any, relief. Three boxes of Chamberlain's Salve cured me. It was a torture. It breaks out a little sometimes, but nothing to what it used to do.—D. H. Bench, Midland, City, Ala. Chamberlain's Salve is for sale by all druggists.

### Will Make This Home.

Mr. Hager and family of Baltimore have arrived in the city, and will make this their future home.

Mr. Hager has read a great deal about Florida, being interested because of the fact that he proposed to move to the State, and after a careful consideration selected Gainesville as being the most moral and most up-to-date interior city in Florida, with the result that he is here with his family. He did not wait to come personally and investigate the situation, but friends had assured him that the city and its people were all that could be desired, hence he brought his family with him.

Mr. Hager has leased the Roberts place in North Gainesville, where the family are now pleasantly located. They will be gladly welcomed, and it is hoped they will not be disappointed here.

Mrs. W. L. Roberts, who has been residing with her husband here for the past two years, will go to Miami. Mr. and Mrs. Roberts have made most desirable residents, and have added a great deal to the social life of North Gainesville and the city proper, both being people of exceptional literary and musical ability. While their friends here will miss them very much, they will wish them much happiness and health in their new home on the East Coast.

## "JUST FROM GEORGIA"

F. L. S. in Atlanta Constitution.

### Farewell to Summer.

I.

Farewell to Summer—for now she's on the wing.
An' pretty soon the mocking bird's will all forget to sing;
I forgive that Georgia farmer who plowed me since the spring:
Farewell to Summer—since she's goin'!

II.

Farewell to Summer! Her roses look forlorn;
The mornin'glories soon will cease the lattice to adorn;
I forgive that Georgia farmer who made me hoe the corn:
Farewell to Summer—since she's goin'!

III.

Farewell to Summer—the blossoms on the bough!
September winds are singin' of the happy season now.
No more you'll see the picture of a poet at the plow:
Farewell to Summer—since she's goin'!

### Can't Please Them.

"It's so hard to please some people," says one of the philosophers, "that I verily believe they'd growl if they were killed by Prosperity!"

### A Natural Born Growler.

"Well, cotton's risin' mighty high!"

"Yes; but it won't stay there."

"An' railroad rates are gittin' cheaper."

"Yes; but you can't git a free pass any more!"

"An' it looks like the day of the poor man had come."

"Oh, yes; but the rich will run over him yet!"

"Well, let's be thankful for what we've got."

"Of course. Lord help us all!"

### A Jubilee Song.

Now we're comin' to the scratch—
Singin' all together!
Rabbit in the brier patch,
Don't like the weather?

Now the soil its bounty yields—
Wealth amazin' bringin';
Bobwhite, whistlin' o'er the fields,
Hear that rifle ringin'?

Country smiles for miles an' miles—
Joy's full measure givin';
Silver now in shiny piles:
Thank the Lord we're livin'!

### Why He is Thankful.

"We live in a great climate," says a rural editor. "Haven't had a cyclone since the bank busted and the cashier was blown out of sight; and outside of the rheumatism, and the measles, and the fall chills, and other little troubles too numerous to mention, we're just as healthy and as happy as the Lord would have us be!"

### Brother Dickey's Sunday Sermons.

Some folks think happiness is on de hilltop; w'en all de time it's knockin' at de cabin door in de valley.

God made de country, an' man made de town, an' de fust thing man done wuz to elect himse'f boss er de whole business.

I don't know dat we'll rickernize each other in heaven. Ef dar's des enough er me left fer me ter rickernize w'en I gits dar, I'll be satisfied.

No use ter blame de worl' w'en things don't go right wid you, kaze de werl' will never turn roun' ter look at you.

W'en I see Trouble comin' down de middle er de road, I raises so much dust dat ter save his life he can't see me!

# NEW FORAGE GRASS FOR FLORIDA STOCK

## Prominent Stock Admirer Says It Will be God-Send to Florida.

ORIGINAL PRODUCT OF CUBA

**It Has Been Tested Here, However, and the Seeds Thrive and Yield Prolificly—Three Crops a Year Can Be Gathered as Forage.**

Attorney B. A. Thrasher, who is a great admirer of stock, and who owns a nice farm a short distance to the west of Gainesville, believes he has solved the problem of feed for cattle in Florida. Col. Thrasher has been experimenting with this forage for the past year, and declares it to be the best thing for the Florida stockman that has ever been discovered.

The forage referred to by Col. Thrasher is an original product of Cuba, and is known as Guinea grass. It is very prolific, and, Col. Thrasher says, planted on fairly good land in this State will grow thick and heavy, and will reach a height of from seven to ten feet if permitted to grow unmolested.

Col. Thrasher, through a friend, heard of this wonderful grass in the spring of last year, and ordered from Cuba a small quantity for an experiment. He planted the seed, which thrived and grew prolificly, and which proved as represented, excellent forage, and very fattening to cattle and stock.

"I can say frankly that, after a thorough test of the Guinea grass, I believe it to be a problem solver for the cattle industry of Florida," remarked Col. Thrasher Tuesday. "I knew nothing about it, of course, when I ordered the seed, but planted them according to my own judgment, in the absence of directions, with the result that I had a prolific crop from my investment. The seed are very small, about the same size as mustard seed, and one seed will yield an armful of as sweet forage as any one would want to see.

"My experience teaches me that, for ordinary cultivation, the seed should be sown in furrows; but if a pasture is desired, they may be strewn broadcast. If it is desired to cut the grass as forage, it should be mowed when about waist high. In that manner three crops a year could be easily produced without repeated sowings."

Col. Thrasher stated that the grass stood the cold of last winter well, coming up fresh and green in the spring. He is very enthusiastic over this new forage, and will be glad to answer any further inquiries regarding it.

## ROGERS FAMILY HOME.

**Arrive Safely Monday Evening—Dr. Rogers' Condition Improved.**

After an absence of several weeks from the city, Rev. S. B. Rogers, pastor of the First Baptist church, and one of the most generally beloved ministers in the city, with his family, are at home again.

Dr. Rogers has been in wretched health for the past year, and a great part of the time has suffered untold agony. His congregation, realizing his condition, granted him a six-weeks' leave of absence. During that time he entered a sanitarium at Atlanta, where a surgical operation was performed, and friends will be glad to learn that he is now on the road to recovery.

Dr. Rogers and family arrived via the Tampa and Jacksonville Monday evening, and were met at the station by a number of friends. From the station they were driven to the parsonage, 103 S. Roper avenue, where other friends had opened up the home and prepared a fine supper for the home-comers. It was a pleasant meeting, the coming together again of the preacher and his family, and after supper had been partaken of the remainder of the evening was passed in pleasant conversation.

Friends of Dr. Rogers in this city, regardless of denomination, feel very grateful of his recovery, as for a time his condition was quite serious, and grave doubts for his recovery were entertained. However, he is gaining strength every day, and declares he will be in position to assume active charge of his duties as pastor in a short time.

## FIRST DISTRICT CONVENTION.

**Was Held Here With Center Lodge, I. O. O. F., and Was Big Success.**

The first district convention of the Independent Order of Odd Fellows, which is a newly created feature in that order, was held with Center Lodge No. 11 in this city Monday evening, and was largely attended.

This is the seventh district, of which Robert McClellan, a well-known Odd Fellow, is the district deputy grand master. The district is composed of the lodges of Gainesville, High Springs, LaCrosse, Newberry and Bell, all of which are lodges of prominence in the State.

There were present at this convention representatives from all lodges, with the exception of Newberry, and the meeting in all was a great success.

During the evening work in the initiatory and second degrees was conferred by the teams of Center Lodge in a most impressive manner. This team is in excellent condition, and the work will be remembered very vividly by the visitors.

At the conclusion of the lodge ceremonies the assemblage were invited to the banquet room, where elegant refreshments of cream and cake were served in abundance. M. B. Saunders had charge of this department, which was an assurance that everything was up-to-date.

D. D. G. M. McClellan has not announced where the next convention will be held.

**Cures Hay Fever and Summer Cold.**

A. J. Nusbaum, Batesville, Indiana, writes: "Last year I suffered for three months with a summer cold so distressing that it interfered with my business. I had many of the symptoms of hay fever, and a doctor's prescription did not reach my case, and I took several medicines which seemed to only aggravate my case. Fortunately I insisted upon having Foley's Honey and Tar in the yellow package, and it quickly cured me. My wife has since used Foley's Honey and Tar with the same success." J. W. McCollum & Co.

## NEWS OF CITY AND COUNTY CONDENSED

James S. Bailey of Newberry was in the city on business yesterday.

Miss Eva Futch left yesterday for Alachua and High Springs, where she will be the guest of relatives for a few days.

T. P. McCarrell, an extensive contractor of Jacksonville who has done considerable work in this city, is here on a business trip.

Miss Tucker Boulware has returned from a pleasant visit to relatives at White Springs. She was greatly improved in health, notwithstanding that her visit was of short duration.

Alex. Howe left Monday for New York, where he will recuperate and "see the elephant" for the next two or three weeks. He was accompanied by his mother, and the two will be guests of Mrs. Howe's son, Chas. Howe, in the great metropolis.

T. R. Pickett of Newberry was in the city yesterday. Mr. Pickett owns and operates a ginnery and grist mill at that place, and says he will start his ginnery up on Thursday of this week. He is operating two double-feed gins, and turns out a large quantity of cotton during the season.

Lizzie Gamble, colored, died at her home in North Gainesville Monday morning of consumption, in the twenty-seventh year of her age. She was a member of Mount Pleasant M. E. church, and the funeral was held Tuesday morning under the auspices of that church, Rev. Huge officiating.

W. R. Steckert of this city and Arthur T. Williams of Jacksonville have returned from a fishing trip on the Gulf coast and up the Suwannee river, and report a fine time. At Cedar Key the gentlemen chartered a launch, and, with a full supply of everything necessary for the cruise, started up the far-famed Suwannee. They report plenty of fun and plenty of luck, and the only regret was that their business engagements would not permit them to remain longer.

## THE EPWORTH LEAGUE.

**Interesting Monthly Meeting, at Which Officers Were Elected.**

The monthly business meeting of the League of First Methodist church wah held Monday night. The annual election of officers was held and the following were elected and will be installed next Sunday afternoon:

President—D. L. Graham; 1st vice-president—R. E. Huffman; 2nd vice-president—Miss Myrtle Fennell; 3rd vice-president—Miss Mary DaCosta; 4th vice-president—Miss Lilly Mason; secretary—Miss Maude Neville; treasurer—Jasper Malphurs; agent Epworth Era—Sydney Godwin; organist—Miss Louise Nixon; reporter—Chas. A. Nixon.

**Rheumatism.**

When pains or irritation exist on any part of the body, the application of Ballard's Snow Liniment gives prompt relief. E. W. Sullivan, Prop. Sullivan House, El Reno, O. T., writes, June 6, 1902: "I take pleasure in recommending Ballard's Snow Liniment to all who are afflicted with rheumatism. It is the only remedy I have found that gives immediate relief." 25c, 50c and $1.00. Sold by W. M. Johnson.

## STANDPAT STATEMENT.

Uncle Joe Cannon virtually tells the Republican leaders they are in a tight place and that unless Congress "is actuated by calmness and patriotism" the party will be defeated in the coming national election. The burden of Uncle Joe's song is that the country is prosperous and there is no uneasiness except in Wall Street, and, therefore, "it would be a crime if Congress should do anything at this time to upset business." That is another way of saying continue to standpat and let well enough alone—the old Hanna cry of bygone years. Uncle Joe likewise warns President Roosevelt to keep to the standpat path when he also said: "The destinies of the party lie very largely in the hands of Congress and the co-ordinate hands of the Government, the executive." Will President Roosevelt standpat at the bidding of the protected trusts which Speaker Cannon has so faithfully served, especially the steel trust, by packing the ways and means committee with standpatters? Moody's Magazine, a reliable New York financial journal, which has the faculty of telling the truth about trusts and corporations, speaking of the steel trust its August number said: "If the steel corporation really were, as protectionists assume, a struggling infant industry that could not survive long without tariff pap, and if the good people of this country were generous, kind and foolish enough to vote this tariff tax of $80,000,000 a year upon themselves, there would be no ground for criticism or complaint. If the steel corporation officials would even confine their tariff activity to arguments and to contributions to political parties they would not be censurable to any great extent. But when these officials, by some means, gain control of the leaders of the ways and means committee and the House of Representatives, and use their influence to suppress discussion of the tariff, they are playing the tariff game unfairly.

## NEGRO PREACHER'S APPEAL.

While the Georgia State prohibition bill was before the Legislative Committee, Rev. H. H. Proctor, a cultured negro preacher, begged the privilege of speaking, and when he had finished it is said that strong men were in tears. Proctor concluded his speech as follows:

"I speak for the two classes not yet heard before this committee—the white women of Georgia and my own race. Pass this prohibition bill and you will have sober servants, less crime and greater peace between the races. I appeal to you white men in your superior strength to give my people this law. The ballot has well-nigh fallen from my own hands. The responsibility is in you gentlemen of the Legislature. Take—I beseech you—take away from my people this temptation that is debauching so many of them. The best of my race, like the best of yours, heartily favor this bill. But I plead for those who, in sin and blindness, do not know their needs. Gentlemen of the Georgia Legislature, I beg you in God's name to save my people from this terrible temptation."

President Robert Mathers of the Rock Island railroad says that besmirched corporation managers are in the minority. The reason no doubt is that only the few ever get to be corporation managers, while the many, the great majority of people, have only to furnish something for the few who manage corporations to steal.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

One of the latest installations that is contemplated by the Navy is a system of wireless telephones for battleships. A few years ago this would have been looked upon as an absolute chimera. But applied science has advanced to the point where a device is offered to the Navy that it is believed will fill the bill. Practically all the ships of the Navy now are fitted with wireless telegraph instruments. These work, according to the strength of the electric equipment, up to 1,000 or 1,200 miles. They serve to keep the warships at almost all times in direct touch with Washington, for it is seldom that by a system of relays from other ships or shore stations any vessel of the Navy cannot be picked up and communicated with in a few hours in almost any part of the world. Some of the older naval officers are absolutely disgusted over this state of affairs. They swore with deep sea oaths many years ago that the submarine cable had ruined the naval service, keeping a commander always at the end of a wire that ended in the Navy Department. But the wireless instruments are even worse. The wireless telephone, however, is a much milder form of control. It is intended merely to keep the ships of a squadron in touch with the commander at night and in weather when the wig-wag and the Ardoise lights would be out of the question. The wireless telephone now works up to five miles in any sort of weather, and under favorable conditions much further. It is infinitely quicker than flag or lamp signal, but it probably will create a demand for expert stenographers in the Navy.

An aged spinster couldn't be half as shy of discussing her age as Roosevelt is about talking of the tariff.

The new $10 bill is very pretty, indeed. The last one we saw looked like a streak of yellow gold.

## SERMONETTES

BY J. MARVIN NICHOLS.

What you do away from home is what you really are.

The millenium will put the muck-raker out of business.

You are no less a grafter because the other fellow beat you to it.

A man's head isn't out of water simply because he floats a debt.

Because necessity ignores every law anarchy is not, therefore, right.

The world makes away for the man who knows and knows that he knows.

Every life is a romance but it takes a Dickens of a pen to put it on paper.

That help which helps a man to help himself is the only help worth the while.

You're simply losing every time you stop to pick flaws in anything or in anybody.

It's the back-stairs-and-kitchen-gossip that raises the devil from his hiding places.

A whole lot of girls are no more than cheap goods not yet marked down by time.

Society—a lot of people who have agreed to do the same thing in more or less the same way.

These pretty differences—the invincible barriers that raise themselves between human hearts! There is no wall like a word, no barbed-wire fence like a vow. The heart does not overstep a promise. It does not invade the territory of a threat.

One could go a whole year with an alien running mate and never breathe a word or a sigh about himself, but with some people—the second you see them you know they are a part of your chord. As the silent string of the piano will catch up, in sweetest harmony, the human voice so—somewhere, somewhen—we shall find the heart whose music blends with ours.

That was an intensely polite and beautiful compliment bestowed not long ago by Heinrich Conreid, the great operatic impressario. He was chatting with a celebrated singer, who is also a very pretty woman. Said she: "Mr. Conreid, do you consider blindness or deafness the greater affliction?" With a gallant bow, he replied: "I should prefer to be deaf when I am looking at you and blind when I hear you sing.

It is said that the world's great violin makers would break and mend, and crash and rebuild again. Somehow they thought it gave the violin a wider range. Oh, yes! There are nights when the stars refuse to shine. There are hours when the poor heart is left all bleeding and torn. Who knows? It may be that we must be shattered. The skillful hand that broke the instrument can rebuild it. He dreams of a way that shall bring out of life its sweetest harmonies, its softest melodies. Who knows?

Oliver Cromwell is said to have observed that it is a good thing to strike while the iron is hot, but it is a better thing to make the iron hot by striking. The successful man creates his own occasions. Instead of waiting for things to turn up he turns things up himself. Blaze your own path in the wildness of the deep forest—you can go that route again, and go alone. The man who sees the polar star can cross any barren waste—but he must look within his own eyes. Stand flat-footed—they can't bury a man that stands that way. The age calls for the fellow that "keeps a-comin'."

## DR. SLEDD'S SERMON.

### This Eloquent Divine Delivered Fine Discourse Last Sunday Morning.

One of the religious treats of the year was the sermon delivered at the First Methodist church Sunday morning by Dr. Andrew Sledd, president of the University of Florida, who selected as his theme, "What Doth the Lord Require But to Do Justice, to Love Mercy, and to Walk Humbly With Thy God?"

The mere announcement that Dr. Sleed will fill the pulpit of any church in the city is sufficient to attract a large congregation, and this was no exception, as the big church was filled almost to its full capacity to hear this eloquent divine on the Word of God. Dr. Sledd is a most earnest, impressive speaker, and throws his whole soul into his work. He dwelt upon this subject in a language beautifully peculiar to all his efforts, and those who heard it pronounced it one of the most impressive sermons they ever listened to.

It is indeed a treat to hear Dr. Sledd, who is very kind in filling the pulpits of the various churches of the city as a matter of accommodation to the clergy, all of which is duly appreciated.

### Attack of Diarrhoea Cured by One Dose of Chamberlain's Colic, Cholera and Diarrhoea Remedy.

I was so weak from an attack of diarrhoea that I could scarcely attend to my duties, when I took a dose of Chamberlain's Colic, Cholera and Diarrhoea Remedy. It cured me entirely and I had been taking other medicine for nine days without relief. I heartily recommend this remedy as being the best to my knowledge for bowel complaints.—R. G. Stewart., of the firm of Stewart & Bro., Greenville, Ala. For sale by all druggists.

### Grave Yard Working.

There will be a grave yard working at Antioch church on Thursday, October 3rd, 1907. Everyone, especially those who have friends buried there, are invited to be present with hoe, rake and broom and a basket full of dinner, and a jug of water, that you may be willing to stay and work all day. Come or send someone in your place, or money that we can put a man in your place.

F. M. HARTMAN, Pastor.

### Chamberlain's Cough Remedy One of the Best on the Market.

For many years Chamberlain's Cough Remedy has constantly gained in favor and popularity until it is now one of the most staple medicines in use and has an enormous sale. It is intended especially for acute throat and lung diseases, such as coughs, colds and croup, and can always be depended upon. It is pleasant and safe to take and undoubtedly the best in the market for the purposes for which it is intended. Sold by all druggists.

## THE SIN OF THE STREET.

### Young Criminals in the Making and the Court Where They Are Tried.

A day spent in New York's Children's Court will never be forgotten. Here all the youthful offenders are tried. Into this court crowds more of human interest than in any other court in the world, says The September Delineator. Before its bars is constantly passing a great procession of human incongruities, scenes vibrant with pathos and humor. For both pathos and humor consist in the perception of incongruities. It is the sins of the parents and the sins of the living conditions that the overcrowded city forces on its children that here stand out most strikingly. The real culprit is more often the delinquent parent than the delinquent child. The sight of a child trotting to a saloon two or three times daily, pail in hand, to procure the family supply of beer—a familiar one in a great city—impeaches the parent for a criminal indifference. Small wonder that the child's moral perceptions are obliterated, and his instinct perverted in such surroundings! It is in the streets, the vice-sown streets, that the child learns to gamble, to swear, to steal. He cannot help it. He must employ the ways of his companions if he is to survive among them. And the ways of his companions lead oftenest to the Children's Court.

### If Its a Reputation

You are after, White's Cream Vermifuge has a world wide reputation as the best of all worm destroyers, and for its tonic influence on weak and unthrifty children. It improves their digestion and assimilation of their food, strengthens their nervous system and restores them to health and vigor natural to a child. If you want a healthy, happy child get a bottle of White's Cream Vermifuge. Sold by W. M. Johnson.

### Police Prevent Lynching.

Atlanta, Sept. 10.—The prompt action of the police reserves probably prevented a riot Sunday afternoon. A policeman was injured in an attempt to arrest a negro for a minor offense, and the report was spread that he was killed. A mob of 500 or more gathered immediately, and only prompt work averted a lynching.

# AILING WOMEN

## How Many Perfectly Well Women Do You Know?

MISS GRACE E. MILLER — MRS. W. S. FORD

"I am not feeling very well," "I am so nervous it seems as though I should fly." "My back aches as though it would break."

How often do you hear these significant expressions from women friends. More than likely you speak the same words yourself, and there is a cause.

More than thirty years ago Lydia E. Pinkham of Lynn, Mass. discovered the source of nearly all the suffering endured by her sex. "Woman's Ills," these two words are full of more misery to women than any other two words that can be found in the English language. Sudden fainting, depression of spirits, reluctance to go anywhere, backaches, headaches, nervousness, sleeplessness, bearing-down sensations, displacements and irregularities are the bane of woman's existence.

The same woman who discovered the cause of all this misery also discovered a remedy, Lydia E. Pinkham's Vegetable Compound made from native roots and herbs holds the record for a greater number of absolute cures of female ills than any other one remedy the world has ever known and it is the greatest blessing which ever came into the lives of suffering women.

Don't try to endure, but cure the cause of all your suffering. Lydia E. Pinkham's Vegetable Compound at once removes such troubles. The following letters prove this:

Mrs. W. S. Ford of 1918 Lansdowne St., Baltimore, Md. writes:

Dear Mrs. Pinkham:—

"For four years my life was a misery to me. I suffered from irregularities, suppression, terrible dragging sensations and extreme nervousness. I had given up all hope of ever being well again when Lydia E. Pinkham's Vegetable Compound was recommended. It cured my weakness and made me well and strong."

Miss Grace E. Miller, of 1913 Michigan St., Buffalo, N. Y. writes:

Dear Mrs. Pinkham:—

"I was in a very bad condition of health generally; irritable, cross, bashful, and suffered from a female weakness. Lydia E. Pinkham's Vegetable Compound, after all other medicines had failed."

What Lydia E. Pinkham's Vegetable Compound did for Mrs. Ford and Miss Miller it will do for other women in like condition. Every suffering woman in the United States is asked to accept the following invitation. It is free, will bring you health and may save your life.

Mrs. Pinkham's Invitation to Women.

Women suffering from any form of female weakness are invited to promptly communicate with Mrs. Pinkham, at Lynn, Mass. From the symptoms given, the trouble may be located and the quickest and surest way of recovery advised. Out of her vast volume of experience in treating female ills Mrs. Pinkham probably has the very knowledge that will help your case. Her advice is free and always helpful.

### Not for Renomination.

New York, Sept. 9.—A dispatch from Honolulu to the American quotes Congressman Longworth, who has just sailed from that port for San Francisco, as saying: "President Roosevelt will not become a candidate for renomination, unless the country demands it. He has firmly made up his mind to stick to this course, and only a more widespread demand for him to accept the nomination will alter his determination."

### No State Fair Reduction.

Atlanta, Ga., Sept. 10.—In railroad circles it is understood that the Western and Atlantic and the Atlanta and West Point railways, will not accede to the proposals made by the state fair association, requesting special rates during the state fair, Oct. 10th to 26th. The claim is advanced that special fair rates have been previously just what is now required as regular rates by legal enactment, and that further reduction would be inimical to the interests of the roads. It is believed that other roads will offer concessions and fair tickets at special rates will again be on sale. It is recalled, however, that all roads declined to put on any Labor day rates.

### Proposals for Bonds.

New York, Sept. 10.—More than 100 sealed proposals for the $40,000,000 worth of city bonds to be sold on Tuesday have thus far been received at the comptroller's office. The indications, the city officials said, were that the sale of the 4½ per cent bonds would be a success. Recently the city tried to dispose of bonds bearing 4 per cent interest, but failed because of the money stringency and the higher interest rates held out elsewhere for capital.

### General Robert E. Lee

Was the greatest general the world has ever known. Ballard's Snow Liniment is the greatest Liniment. Quickly cures all pains. It is within the reach of all. T. H. Pointer, Hempstead, Texas, writes: "This is to certify that Ballard's Snow Liniment has been used in my household for years and has been found to be an excellent Liniment for Rheumatic pains. I am never without it." Sold by W. M. Johnson.

### G. A. R. Encampment.

New York, Sept 9—Many veterans of the war of the rebellion arrived on Monday from points in the south and west on their way to Saratoga, where they will attend the forty-first national encampment of the Grand Army of the Republic, which will open formally Tuesday The delegates, many of whom were accompanied by wives and daughters, spent much of the day in visiting Grant's tomb, Governor's island and other places of special interest to old soldiers.

### She Found Relief.

If you are troubled with liver complaint and have not received help read this. Mrs. Mary E. Hammond, Moody, Texas: "I was in poor health—with liver trouble—for over a year. Doctors did me no good and I tried Herbine, and three bottles cured me. I can't say too much for Herbine, as it is a wonderful liver medicine. I always have it in the house. Publish where you wish." Sold by W. M. Johnson.

### Wreck on Rock Island

El Paso, Tex., Sept. 10.—Rock Island train No. 4, bound for Chicago, which left here at 6 o'clock on Sunday night, was wrecked at Escondida, N. M., 61 miles north of here. Six cars of the train were thrown off the track and turned over. The wreck was caused by a brake beam falling on the track. All the passengers were slightly injured.

Berlin, Sept. 10—Two deaths from cholera are announced from villages adjacent to Sosnowice, just across the Sicilian frontier in Russian Poland.

### Divorce Caused Double Tragedy.

Columbus, Miss., Sept. 10.—James Cooper Saturday killed his wife and himself. Divorce proceedings, it is said, were pending between the couple and while Mrs. Cooper was in her husband's home with her father, gathering her belongings, Cooper asked her to step into another room with him for a talk in confidence. The wife consented, and the husband locked the door of the room and shot his wife. He escaped through a window and later shot himself.

### Lame Back.

This is an ailment for which Chamberlain's Pain Balm has proved especially valuable. In almost every instance it affords prompt and permanent relief. Mr. Luke LaGrange of Orange, Mich., says of it: "After using a plaster and other remedies for three weeks for a bad lame back, I purchased a bottle of Chamberlain's Pain Balm, and two applications effected a cure." For sale by all druggists.

TO BE STRONG
TO BE LIBERAL
TO BE PROMPT

To serve its depositors well and truly, holding their interests identical with its own; to grant as generous terms as are consistent with sound banking; to welcome the small account as cordially as the large one; to be satisfied with small margins of profit in its business transactions, and to give its customers a fair measure of its success, is the policy of
